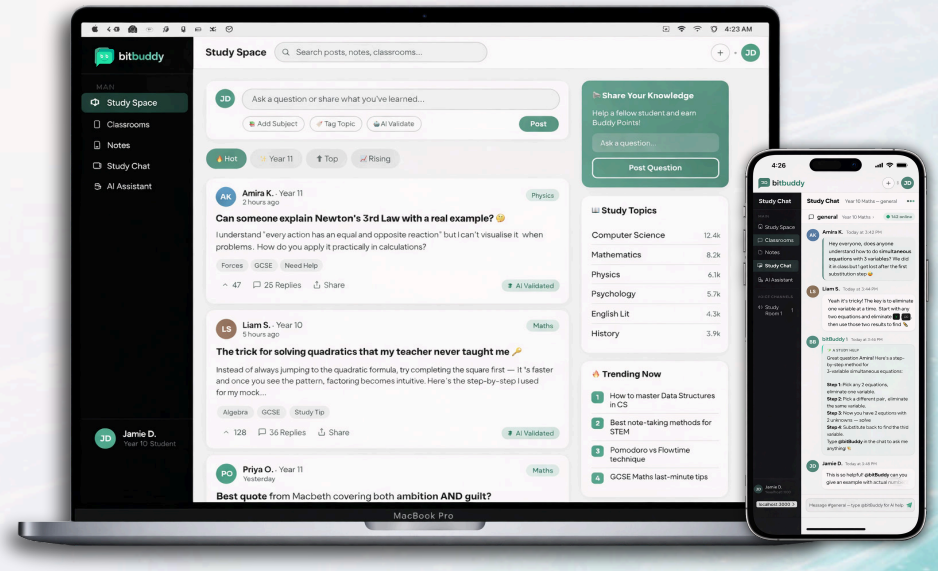
Learn, Share, Connect

Bit by Bit...

What is BitBuddy?

BitBuddy is a social learning platform designed to help students collaborate, ask questions, and organize their studies in one place all within a social media styled interface designed for education.



Key Features

Collaborative Study
Students can join classrooms, ask questions, and discuss topics with their peers in real time.

AI Study Assistant
Built-in AI helps explain difficult concepts, guide solutions, and support

Organized Learning
Notes, study chats, classrooms, and resources are stored in one platform to keep studying structured and efficient.

Target Users

- Secondary school students
- University students
- Study groups
- Online learning communities
- Teachers and Lecturer
